You must adhere to the following norms during the proposed study:

1. You should not deviate from the main theme and methodology of work without prior approval of IEC (HR), C.U. Shah Medical College, and SurenDRanagar.
2. You should take informed consent from the subjects involved in proper format. You should also take consent and give due credit to other departments involved in the Study / Analysis / Interpretation.
3. You should observe utmost respect towards the subjects used and should do nothing to physically hurt them.
4. The human samples and tissues used for the study should be handled with care, purposefulness and respect.
5. The choice of drug / procedure will be as per clinical status and patients' requirement and not biased by the study.
6. The financial burden of additional investigations/procedures will not be passed on to the subjects.
7. The biological material should be disposed according the prescribed guidelines.
8. The IEC(HR), CUSMC, expects to be informed about the progress of the study (Every 6 Months), and if any changes are made in the protocol or patient information sheet/ informed consent the EC need to be informed about this in advance and an additional permission is required to be taken. The IEC also requires you to submit a copy of the final study report & publications.
